

# NANO PHOTO SMOKE DETECTOR

Not Just An Early Warning. It Could Be Your Only Warning.

## Product Overview

The smallest domestic smoke detector ever, this stylish smoke detector is operated by a 3V lithium battery that lasts for 10 year. It is equipped with a self-diagnostic checking feature to ensure correct operation through its 10-year service life. After 10 years of operation, an audible warning will occur indicating that the detector should be replaced. It comes with a big test/silence button at front cover for easy access. It also comes with a local alarm memory mode which allows for easy identification in event that alarm has been triggered before. This model is also LPCB certified.

Blaze Guard is an authorized HFAD supplier listed in SCDF.
